### DETAILED ACTION

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1,2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "and leading out wiring to outside of a housing with the housing at a time of molding the housing". This phrase cannot be interpreted

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 rejected under 35 U.S.C. 102(e) as being anticipated by Tanaka.

With regard to claim 1, Tanaka (US 5,724,730) discloses a wiring connection method for an electronic apparatus (11) containing electronic parts requiring large current for driving, the method comprising the steps of integrally molding a harness (6) for wiring inside the electronic apparatus.

With regard to claim 2, Tanaka discloses steps of placing the harness on a notch portion (27) of the housing.

---

Art Unit: 2833

With regard to claim 3, Tanaka discloses a wiring connection structure for an electronic apparatus containing electronic parts requiring large current for driving, the structure comprising:

a housing (11); and

a harness (6) for wiring inside the electronic apparatus and leading out wiring to outside of the housing, wherein the harness is molded integrally with a housing.

With regard to claim 4, Tanaka discloses a notch portion (15b, 27) being formed in the housing; wherein the harness passes through the notch portion from outside of the housing to inside thereof; and wherein the harness has core wiring covered with a jacket (7).
